

PRIVATE SEWAGE DISPOSAL SYSTEMS
Sludge Disposal Information Form

For Septic Tank Pumpers Only

Rule 13.04 of the Illinois Private Sewage Disposal Code requires that each licensed contractor engaged in sludge disposal file with the Department, and each year amend, a statement of the place and methods of disposal of domestic sewage sludge.

The Department is also required to make such inspections as are necessary to determine satisfactory compliance with the Private Sewage Disposal Licensing Act and Code. Therefore, the following additional information concerning your disposal site(s) and the volume of septage disposed of at those sites is necessary.

1. Location of regularly used sludge disposal sites. (Indicate whether landfill or farm lands, etc., including name and address and/or legal description:)

2. How many gallons of sludge did you transport for disposal last year? _____

Also, how many gallons have you transported this year to date? _____

3. Indicate if you () use or () own a sludge lagoon for disposal of sludge.

3. Indicate which municipal sewage disposal facilities you utilize:
