Citizens of Macoupin County,

This report provides a review of the Macoupin County Public Health Department's (MCPHD) many accomplishments for Fiscal Year 2024 as well as a picture of the future of public health for Macoupin County. As you review our Annual Report, we hope that our dedication to providing the best public health services to the residents of Macoupin County is evident.

In January 2023, we experienced a change in administration that, although anticipated, catapulted 2023/2024 into a year-and-a-half of major learning experiences. Our administrative team broke down programs to their core foundations and have taken the past year to mold these programs into what we wholeheartedly believe work best for our health center patients. With nearly 40 years of collective experience, our C-suite team has embraced the challenges that they have faced over the past year and have worked with the administrative team to ensure our programs are running as smoothly as possible in the present while also preparing for future sustainability.

As we put together our Annual Report for FY24, we cannot help but mention that this is also the time that our Illinois Project for Local Assessment of Needs (IPLAN) is due to be renewed. The IPLAN is a community health assessment and planning process which is conducted every five years by local health departments all across Illinois. The IPLAN is based on the Assessment Protocol for Excellence in Public Health (APEX-PH) model and completion of the IPLAN fulfills the majority of the requirements for Local Health Department certification under the Illinois Administrative Code Section 600.400. In late 2019, the three health priorities, identified as the greatest health challenges in Macoupin County, were substance abuse, mental health, and cardiovascular disease. Our 2019-2024 Assessment brought together four MCPHD staff members and 24 volunteers who met to discuss the health care needs of our community. Community input is critical to the process of accessing the health problems and health care needs of the community adequately.

With that said, progress has been made on our 2024-2029 IPLAN and it is close to completion. We used a community survey model and asked Macoupin County residents for their input on identifying the three health priorities for Macoupin County. The total number of residents who responded to the survey was 146. We took their input and provided it to a team of 12 community leaders who then narrowed down the top three health priorities as mental health, substance use/abuse, and child abuse and neglect. At our November board meeting, our board members will be asked to review and approve our 2024-2029 IPLAN and it will then be made available on our website. The information within the plan is critical and will be used when searching for future grant funding opportunities and for the overall future growth of our health department.

We will continue to challenge ourselves to develop and implement programs and services which meet the needs of our patients. Such programs include health clinic services, school counseling services, and mobile unit services for dental, medical, behavioral health, and public health needs. Our St. Francis Way Clinic, which was opened in September 2020, continues to provide quality Level One treatment and recovery services for those needing substance use disorder services. Additionally, we are proud of our many programs which provide a variety of public health services such as: environmental health (food establishment inspections, radon screenings, vector control, etc.), domestic violence, school health, early childhood health, dental, medical, behavioral health, and substance use. Additionally, our Women, Infants, and Children program and our Healthy Families Macoupin County program work together to provide services which meet the maternal and child health needs of county residents.

As we look toward 2025, we hope to be able to take a deep breath and look back on January 2023 to the present time as a time of many challenges that were overcome with hard work, perseverance, and dedication. We often reflect on the changes that have been made and the lessons we have learned and we plan to carry on with the same drive and determination that brought us to where we are today. We are grateful for our loyal and hard-working staff and we know that it takes every role and position in every one of our departments to keep our programs running. Without our patients and without our staff who provide services to those patients, our doors would not be open.

As the COVID-19 pandemic taught us, we must be prepared for public health challenges that we do not yet know exist in the future. We remain dedicated to face all of these challenges head on within the context of the continually evolving public and private health care delivery system. As we say every year, the future of public health in Macoupin County may be ever-evolving, but the dedication and experience of Macoupin County's Board of Health, Health Center Board, and the professionalism present among the Health Department staff provide the foundation of preparedness for dealing with the stressors and the victories within the realm of providing public health care services.

On behalf of the Macoupin County Board of Health and the staff of the Macoupin County Public Health Department, we are proud to present you with the 42<sup>nd</sup> Annual Report.

---

Christy Blank, RN  
Chief Executive Officer and  
MCPHD Public Health Administrator

---

Dr. Michael LeVora  
President, Macoupin County Board of Health

## MACOUPIN COUNTY PUBLIC HEALTH DEPARTMENT MISSION STATEMENT

The Macoupin County Public Health Department believes that good health is a valuable right for all individuals, groups and the community. We are dedicated to serve and work with the people in the community to prevent disease, to promote wellness and to protect the health of the residents of Macoupin County.

The Macoupin County Public Health Department will carry out this mission through:

- Assessment and analysis of health conditions
- Development of local health policies
- Prevention and control of disease through health promotion, early intervention and health protection
- Where applicable, enforcement of state laws and local ordinances pertaining to health
- Assurance of access to personal health care services
- Minimizing the adverse impact of diseases and disabilities
- Conducting programs in accordance with Illinois Department of Public Health certification standards for local health departments
- Coordination and planning with other entities for a comprehensive community health system

---

**ILLINOIS PROJECT FOR THE LOCAL ASSESSMENT OF NEEDS | 2019-2024**

Our 5-year IPLAN (Illinois Project for the Local Assessment of Needs) Community Health Planning process was submitted to the Illinois Department of Public Health during FY '20 with the participation of 24 local community planning group members.

In accordance with the Certified Local Health Department Code (77 Ill. Adm. Code 600); Section 600.400 (e) (1), I-PLAN's required component known as APEX/PH Part I-Organizational Capacity Assessment and Part II The Community Needs Assessment and The Community Health Plan was completed in December 2019. The Board

of Health reviewed and approved the department's process and report in their regular meeting on December 18, 2019. The Organizational Capacity Assessment, the Community Needs Assessment, and the IPLAN were approved and recertification of the Macoupin County Public Health Department was granted by the Illinois Department of Public Health, in May 2020. The 5-year Community Health Plan is effective from 10/28/19 through 10/27/24. The Macoupin County Public Health Department continues operating as an Illinois Department of Public Health Certified Local Health Department.

**2019-2024 IPLAN health need priorities are:**

- Substance Abuse
- Mental Health
- Cardiovascular Disease

  - Suicide and Depression Prevention
  - Taking a Stand Against Bullying
  - Talking Without Speaking
  - Teasing, Harassment, Bullying
  - Tobacco/Vaping

- Provided NARCAN training across Macoupin and Montgomery counties.
- Participated in the first annual Carlinville Community Health Fair as a co-sponsoring host with Carlinville Area Hospital and the Carlinville Chamber of Commerce
- Increased our number of Mental Health First Aid instructors from one staff member to two.

## **NEW PROGRAMS, INITIATIVES OR ACHIEVEMENTS IN FY2024**

1. Expanded on walk-in dental clinic availability by offering walk-in dental appointments at Morgan Street Clinic one day per week.
2. Provided health care to 9,145 health center patients between 9/1/23-8/31/24.
3. MCPHD Health Centers received the Advancing HIT Award from the National Commission of Quality Assurance.
4. Martin Repetto, Psychiatrist from The Pavilion Behavioral Health Center in Champaign, Illinois, continues working with MCPHD to provide collaborating guidance and training to our Psychiatric mental Health Nurse Practitioner staff.
5. Successfully implemented a Dental Centralized Scheduling Team for all health center patients.
6. Participated in National Prescription Drug Take Back Day.
7. Held a successful annual drive thru flu clinic at the Macoupin County Fairgrounds where influenza and COVID-19 vaccines were offered to the public.
8. Successfully completed (with zero findings) a Vaccines for Children (VFC) audit for Maple Street and Morgan Street clinics.
9. Successfully completed (with zero findings) a School-Linked Health Center audit for Maple Street and Morgan Street clinics.
10. Successfully completed the OPA 340B audit.
11. Hosted 1<sup>st</sup> Annual Domestic Violence Awareness Walk
12. Hosted monthly Macoupin County Network Alliance meetings with community partners
13. Continued to be a host site for a monthly support group facilitated by National Alliance on Mental Illness (NAMI).
14. Co-hosted a Community Health Fair with Carlinville Area Hospital and the Carlinville Chamber of Commerce.
15. Provided resources to attendees at the Macoupin County Fair.
16. Hosted annual Safe Families golf tournament and successfully raised \$8,000 to support victims of domestic violence. The golf tournament featured 20 teams, 19-hole sponsors, and 3 silver sponsors.

## **IMMUNIZATION CLINICS**

Clinics continue to be held at least weekly for immunizations at Morgan Street Clinic. Clinics are scheduled as follows:

DATE	TOWN	PLACE	TIME
Every Wednesday	Carlinville	Morgan Street Clinic	8:30am – 4:30pm

### **MCPHD Immunization/Vaccination Policy:**

The parent/guardian or a responsible adult with written permission from the parent or guardian should accompany children under the age of 18. Guardians are required to bring children's immunization records to clinics. Donations are accepted but not required. No one will be refused services.

MCPHD utilizes community facilities to provide convenient access for all Macoupin County residents to access MCPHD services through outreach immunization clinics. Community facilities are not responsible for services or activities conducted during these clinics. Questions about immunization clinics should be directed to the Macoupin County Maple Street Clinic at 217-839-1526.

## **PROGRAMS & PUBLIC HEALTH SERVICES**

---

### **I. Tuberculosis Control**

Services are provided to test for infection with mycobacterium tuberculosis and to treat infections with mycobacterium tuberculosis and infection resembling mycobacterium tuberculosis until the causative agent is identified.

Tuberculosis Clinics Held	0 – We are moving to a referral source model
Skin Tests Given	309
Active Cases	0
Patients Seen by Physician	0
X-Rays Reviewed	0
Consultations with Nurse	2

### **II. Presentations by Nursing Staff**

Radio Interviews	4
